Wishing everyone a day of peace & reflection on this Labor Day. Its more important than ever to honor workers by continuing the fight to ensure fair wages, paid sick leave, affordable healthcare, & a fair economy in which anyone who works hard can have a dignified quality of life

Update on Grow Your Own Teachers citizenship requirement: The statute defines Educational Assistants, in part, as U.S. Citizens. I'll be working with the sponsors as well as @GovMLG to fix this in the upcoming session.

Every day should be #IndigenousPeoplesDay2019 ! This country has massive work to do to educate its non-Native citizenry about the importance of sovereignty, the need for restorative justice & the real history of this nation. It starts in our schools. #JusticeForAll #nmpol

Leaders like @RepCummings are a rarity in American politics - his voice of reason, unbending will for justice and equity, and tenacious and thoughtful policy making are what inspire today's young community and political leaders. Mr. Cummings is gone but his impact will remain.

Foul. This is blatant racism. This is dangerous. This is what I expect to hear from a white supremacist, not the president of the United States. It's these statements that lead to hate crimes and racial violence. We can't take four more years of this.

It would be hard not to know of the gesture's controversy. Two options here: willful ignorance or ugly racism. His past backs the latter.

.@AnnHendrickson1 thank you for sharing. Some folks would rather ignore the uncomfortable and disgustingly racist origins of this part of history and whitewash the movement to fit their world view. We don't all see through that lens. It's important we openly acknowledge this.

@Gabe_NM just saw this in the paper today. It bolsters your concerns regarding women's suffrage and aspects of #racism. Ashamed to say this example comes from my birth state. #NorthCarolina

Do I recall correctly that this led to changing the licence plate from "First in Freedom" to "First in Flight"?

MaryAnn Hendrickson @AnnHendrickson1 · Dec 28

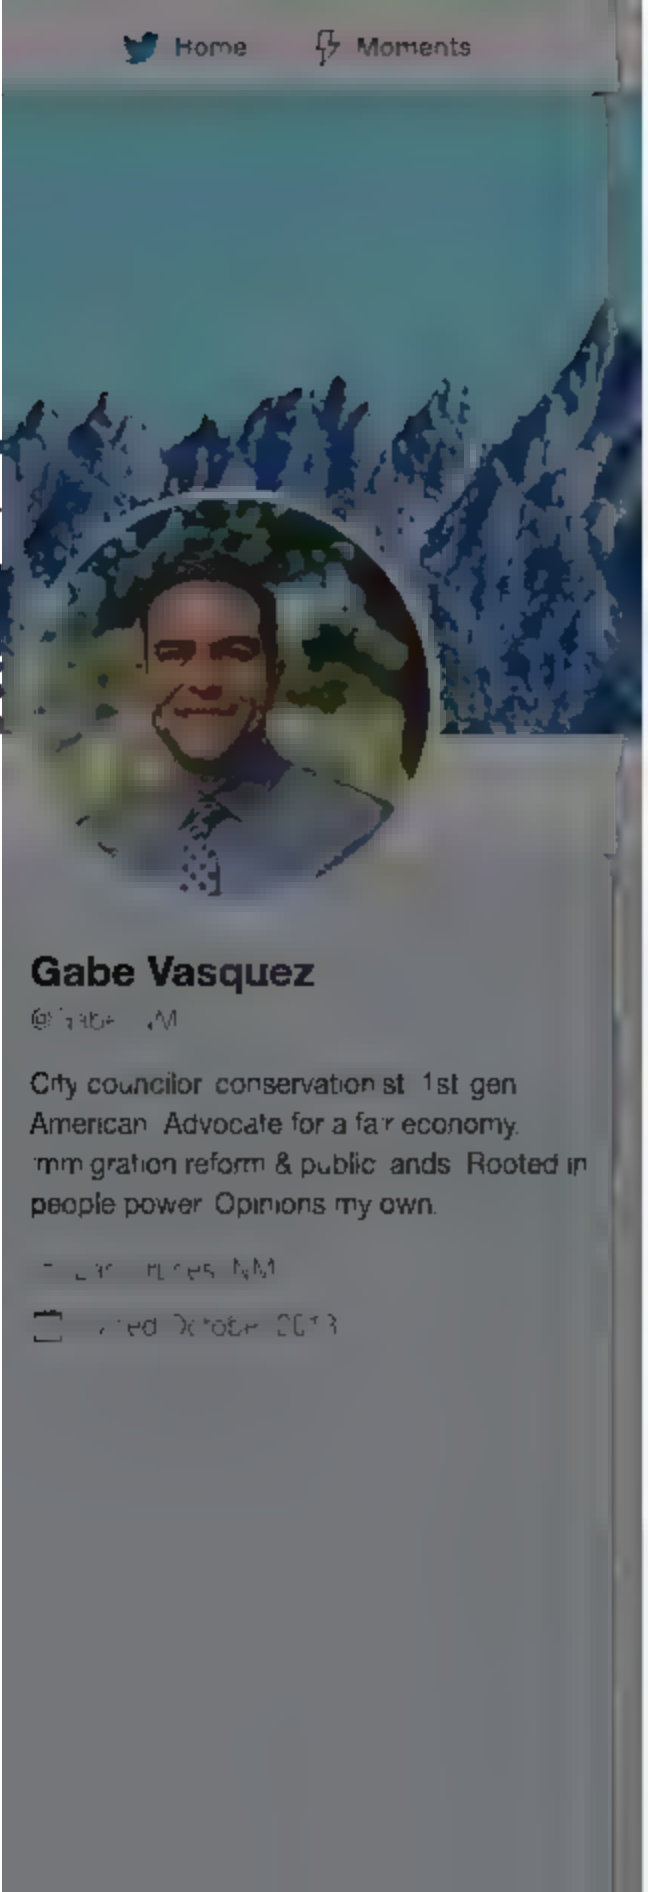

Not 100% sure, but NC had 1st in flight because of the Wright brothers at Kill Devil Hills. Ohio got mad. NC backed down to claim 1st in Freedom because of the Halifax Resolves and Mecklenburg Dec of Independence. Both predate the U.S. Declaration. 1 of 2.

#insulin is a matter of life and death for New Mexicans with diabetes. But at $100 - $500 a vial, many are cutting doses and risking their lives. Now that cost will be capped at $25. That's huge!

The governor on Wednesday issued a public health emergency, as other states have, in order to maximize the resources available to the state in order to fight the potential spread of the virus and minimize public health risks for New Mexicans.

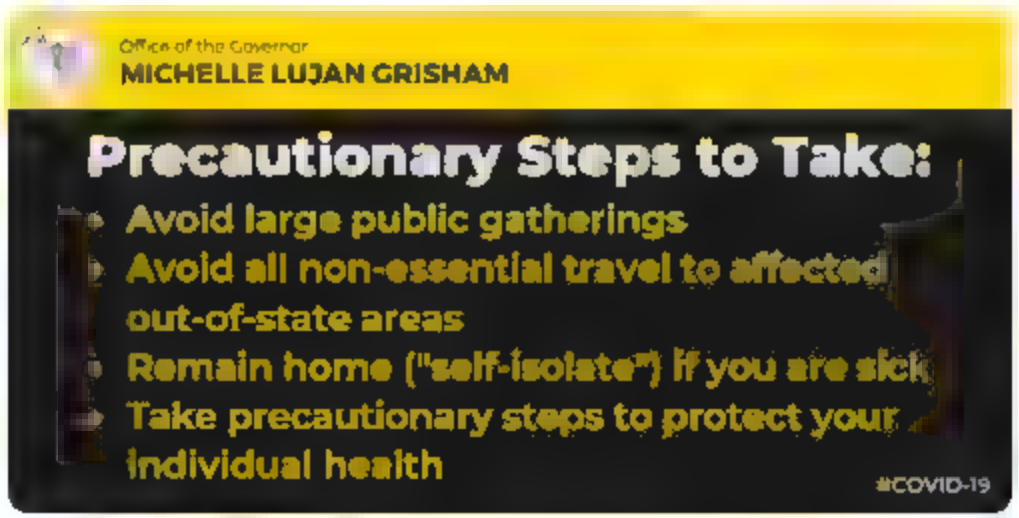

The health emergency declaration is intended to enhance the state's financial flexibility and preparedness for the potential spread of COVID-19 as has occurred in other states. That order is attached to this release as a PDF.

I asked this question in council today - the ability to have drive thru facilities depends on the number of tests available and nearby labs to process them. ABQ has a lab to process them on site, where we don't, so we need more tests and a local lab. Working on that

The senate did not include undocumented folks in the economic relief package. This means that countless families like mine—who you see working in restaurants, laundromats, and construction—will be left out to deal with the pandemic, and increasing unemployment, alone.

My mom is a nurse. On Sunday, she took care of patients without appropriate PPE. Today, after days of fevers to 103, cough, and dyspnea, she tested COVID+. This is not okay. We shouldn't have to accept this. We deserve better.

This is much worse than "not okay." Our healthcare workers deserve the very best protection for duty, just as a soldier in war is protected for duty. I am so f*cking angry that people are being forced to take unnecessary risks with their lives and/or health.

The biggest challenge is overcoming the state'a antiquated anti-donation clause, which although well-intentioned, poses a massive barrier for local governments from providing local relief during emergency situations. This needs to change.

Loans techn cally aren't a bailout. Direct payments are. There s a long history about ra lroads wanting subsidies that explains why. L ke t or not, the only way around that is a constitutiona amendment and an election that won't happen now. Gotta work with the system you have

Right. And loans to wage thieves are workable for said thieves. They have capital to weather the storm but would prefer not to, while many workers literally have no other option. I get the history of the ADC, but we can do so much better for people w/o continuing the status quo

By bringing hundreds of out of state workers in the midst of a pandemic poses a risk for our state. We urge @GovMLG to protect New Mexicans. And that the money for new border wall should be repurposed to spend on the nation's shortage of medical supplies.

Do you know that grocery stores use #census tracts to determine where they should open? Black, Latinx, AAPI, Native & Indigenous communities rank as the most undercounted & in turn are under resourced by the federal govt cycle of intergenerational poverty & poor health outcomes

RIP my mentions w/all of the victim blaming re: disproportionate COVID-19 deaths in the Black community. No one is playing victim (we are resilient) or the "race card". Your willful ignorance is exhausting. Systemic oppression thru structural racism is real

It has been a slow killer of people & communities & now it is proving a more blunt tool of death in the midst of a pandemic. This is why we need race/ethicity data collected, disaggregated & publicly reported

Those who rail against immigration I have news for ya. Immigrants are on the front lines of the fight against COVID19, many here "illegally." They're growing the food on your table. They're caring for grandma in the nursing home. They're childcare workers watching over your kids.

Our economy is hurting because of the virus, not because of social distancing orders. To save the economy we have to fight #COVID19. New Mexico's phased reopening will be data-dependent and will be done when we are sure that the virus is being successfully suppressed.

The tip of the spear of a white supremacist system ends in state sanctioned, cold-blooded murder of black individuals. There is so much to undo, to unravel this system & shift power structures to fundamentally change this country. That's why the cars and buildings are burning.

The fact that the $18 billion permanent fund is a sacred cow used as an insurance policy against “higher taxes” while children of color experience some of the worst child wellbeing outcomes in the country is an example of institutional racism..

The permanent fund was created at statehood. with the feds taking “choice land” that at the time belonged to Native Americans and Hispanic and grants to create what’s now the permanent fund

Rep. Javier Martínez @JavierForNM 15m
If the #nmleg is serious about dismantling racist systems of oppression, they can start by fully funding ECE to ensure that children of color are afforded every opportunity to get a healthy start in life

1 1 4

Rep. Javier Martínez @JavierForNM 15m
The opportunity gap begins almost at birth, yet our legislature has been content throwing pennies at programs widely accepted as transformative for children and for entire communities. The permanent fund belongs to the people. Not politicians intent on protecting the status quo

Black lives matter. Until we deconstruct and rebuild the systems of oppression that keep black people in perpetual harm, justice will not be served. That includes law enforcement, the economy, and the disgusting wealth inequality that keeps white rich men in power.

I'm especially excited for the removal of John Arthur Smith and Mary Kay Papen, two state Senators who collectively have impeded or directly halted transformational policy change that would be of tremendous benefit to New Mexican families.

With successful November elections from these primary winners, I expect the new makeup of the State Senate to finally pass game-changing legislation that involves doing away with corporate tax cuts and other policies that promote the faux trickle-down economy

Those are just some of the things that are possible with these folks in leadership, taking up longstanding efforts from legislators who have been working on these issues for years, only to be stifled by the money and power that have corrupted these soon-to-depart gatekeepers.

Clarification for those getting upset in my use of verbs. I used the verb bumped because the driver was at a very low rate of speed. I could have said hit but it didn t seem like the right verb to use. Either way, the driver was in the wrong and thankfully, no one was hurt

Does nobody understand how low the bar is? I don't like the man personally but for him to show ANY kind of compassion towards the movement is almost a miracle. I accept baby steps as long as they're moving in the right directions. Nobody will ever live up to all our expectations.

Yep. Hate to give him a cookie for displaying a bare minimum of human decency but when the bar has been set SO LOW by his peers, it's notable to witness even a grain of empathy & compassion from a prominent Republ. I can acknowledge that & still [redacted] him for the break in ranks.

A good way for enviro/conservation organizations to share power w/ BIPOC organizations & individuals: When asked by the media to comment on an enviro issue that impacts BIPOC, instead of commenting, refer the reporter to a BIPOC org/person, so they can speak for themselves.

As a #DACA recipient, I couldn't help, but to start crying of happiness this morning. There is so much to process. Our anxiety has been through the roof for weeks, and it feels good to have a win. But there is so much work left to do!

Glad the ISC finally made the right call to stop the disastrous Gila Diversion. Too bad it came after the NM CAP spent $13 million on failed studies and lawyers. A huge waste of money. Pete Dominici Jr. sure made off good though, the rich get richer, at our expense.

The CAP's incompetence during this entire project should serve as a history lesson on how not to manage a water project.. from a $1 billion pipeline over the continental divide to a few piddly ditches in Virden, the money wasted on this has been incredible. CAP should be replaced

The Trump Administration fails to acknowledge the incredible cultural history of indigenous people on this continent. The President's defense of white supremacy is incredibly insulting and his actions reflect his lack of respect for Tribes.

Here's a great perspective direct from Tohono O'odham chairman Ned Norris Jr., whose voice should be amplified and should be at the forefront of this conversation:

To add to this, here is a conversation I had with former Tohono O'Odham vice chairman Verlon Jose earlier this year, at the Arizona border on the reservation, explaining his stance: "Over my dead body will they build this wall."

Walls destroy wildlife. Walls destroy communities. The river often carries out debris when floods occur. Building the wall would cause debris to pile up and flood the area.

During my time at UNM and long afterward he and became quite close. We sort of bonded over our shared love of literature, Christmas Eve farolitos at Mt. Calvary Cemetery. And our Pecos Valley roots. I'll always cherish the memories we shared.

That's amazing, Damien. I wish I could have sat down to talk with him about all things literature and New Mexico and in particular about his book, Bless Me Ultima, which had such an impact on me in formative years. Glad you got to spend some time with him.

Thanks to your cowardly inaction, the very spot you stood smiling in this photo will soon be bulldozed for the #BorderWall, slicing the landscape in two & forever altering the trail.

LOUISVILLE, KY. – *U.S. Senate Majority Leader Mitch McConnell (R-KY) issued the following statement on the passing of Congressman John Lewis (D-GA)*

"The Senate and the nation mourn the loss of Congressman John Lewis, a pioneering civil rights leader who put his life on the line to fight racism, promote equal rights, and bring our nation into greater alignment with its founding principles.

"Congressman Lewis' place among the giants of American history was secure before his career in Congress had even begun. This son of sharecroppers in segregated Alabama helped to found and lead the mid-century Civil Rights movement. As a student in Nashville, John organized groundbreaking sit-ins at lunch counters. He was one of the 13 original Freedom Riders, assaulted and arrested for insisting on integrated bus travel. And as Chairman of the Student Nonviolent Coordinating Committee, John helped lead and organize the entire March on Washington at age 23 and addressed the massive assembly. John Lewis risked everything. He endured hatred and violence. But he kept working, because he was convinced that our nation had to be better.

"Since 1986, Congressman Lewis brought that same spirit of service to the Capitol. You did not need to agree with John on many policy details to be awed by his life, admire his dedication to his neighbors in Georgia's Fifth District, or appreciate his generous, respectful and friendly bearing.

"I will never forget joining hands with John as members of Congress sang 'We Shall Overcome' at a 2008 ceremony honoring his friend Dr. Martin Luther King, Jr. It could not have been more humbling to consider what he had suffered and sacrificed so those words could be sung in that place.

"Dr. King famously said 'the arc of the moral universe is long, but it bends toward justice.' But progress is not automatic. Our great nation's history has only bent towards justice because great men like John Lewis took it upon themselves to help bend it. Our nation will never forget this American hero."

Did you actually approve this before someone else wrote it for you? You know a better way to honor his legacy - spend time working toward racial and economic justice by supporting and allowing existing legislation to be voted on the Senate floor. A press release does nothing.

That's not history "porn" it's a trace of the original people that lived on that land before it was colonized and people we're forcefully murdered and removed from their homelands. Have some respect.

There are few things a nation can't come back from. I'd argue that a federal govt. that launches an assault on its own citizens is one of them. This is an abuse of power and fuel for a civil war and it will forever scar the already damaged relationship between people and govt.

I add that ICE & CBP have been been doing this for decades disappearing mothers, fathers, children, with no regard to their value or contributions to their communities. Certainly no regard for their humanity. But we know why that's largely been ignored by the public at large

Civil war is what he's after. He needs to cancel the election. We must rely on the courts and the legislature to explicitly take this power away from him. And maybe Hector will sue him too. We're super lucky our AG is such a bad ass.

We will not tolerate any use of federal forces in NM for political purposes, to cause mayhem, or to violate New Mexicans' constitutional rights.

Federal law enforcement must not be misused for President Trump's dangerous agenda—in Albuquerque, Portland, or any other city.

Udall: New Mexico must be vigilant and will not tolerate misuse of federal law enforcement for political purposes

WASHINGTON – Today U.S. Senator Tom Udall (D-N.M.) issued the following statement after the Trump Department of Justice (DOJ) announced that it will deploy additional federal law enforcement to New Mexico:

"Federal law enforcement should not be misused as part of the president's political agenda, whether in Albuquerque, Portland, or any other U.S. city. Unfortunately, this president has shown himself to be ready and willing to do so, creating an environment where communities reasonably reach with fear to announcements like we heard today from the White House.

"Given the well-documented abuses in Portland and President Trump's public statements and news reports about expanding such deployments during his reelection campaign, let me be clear: We must remain vigilant about the expansion of Operation Legend to Albuquerque. New Mexico leaders – regardless of party or position – should not tolerate the use of federal forces in our state for political purposes or in ways that abuse mayhem and violate New Mexicans' constitutional rights. And we certainly do not need presidential attacks on New Mexico that only inflame tensions in an effort to politicize serious issues like improving community safety, achieving racial justice and better supporting those struggling with addiction and mental health issues.

"Following this announcement, I am seeking answers about the exact authorities, missions, duration and conditions attached to this operation. I stand with our state's leadership in keeping a close watch on this sudden deployment of federal law enforcement, and will do everything in my power to protect the constitutional rights and freedom of New Mexicans."

That's great you're thinking about going that way! I'd recommend staying somewhere in Gila Hot Springs or in Glenwood, two opposite sides of the forest, each just as beautiful with so much to offer. Dispersed camping everywhere if you're up for that too.

More than 8,000 people have perished as a direct result of @CBP's deadly policies.

Chief Villareal's claim that "Border Patrol Saves Lives" is like bragging about rescuing a few people from a burning building that he lit on fire while thousands more perish in the flames.

Roy D. Villareal @USBPChiefTCA

Tucson Sector #BorderPatrol Agents rescue people almost daily, and many times it is multiple people each day. This fiscal year through June we rescued more than 980 people. Human life has great value.

Here's my take on the Royal Crossing TIDD in #LasCruces. While I disagreed w/ the original proposal, I'm disappointed that another inner-city redevelopment plan has stalled. Reinvesting in communities of color must be a priority. We need our fair shake.

Regretfully, I could not attend this work session - however, my position on minimum wage remains the same - workers deserve a living wage, and especially during a pandemic, we should not be reducing any workers' wages. It is cruel, unjust, and would set Las Cruces back. No way.

The [illegible] has violated the Constitution by closing access to Quitobaquito to the O'odham. They have a right to perform ceremony there, to speak up for and protect the land. And the O'odham are not backing down. Journalists and Constitutional lawyers take note.

Travel to Quitobaquito Springs

Quitobaquito Springs AZ Hia-Ced O'odham Tohono O'odham, Akimel O'odham and allies will travel today to Quitobaquito Springs to pray and protest the construction of the border wall on their sacred site. The group will be arriving early Wednesday morning to hold ceremony upon their land directly in defiance of an order from the National Park Service prohibiting them from entering the area. Earlier on Monday NPS issued a temporary closure of Puerto Blanco Drive cutting access to the Springs to the public, this includes O'odham

Members of the O'odham Anti Border Collective have stated that the closures are due in part to recent protests that have slowed down construction of the border wall. The border wall has caused irreversible damage to the land water animal and plant life and cultural heritage of the O'odham "It is like witnessing a crime. It is like witnessing genocide" shared a member of the O'odham Anti Border Collective who is both Hia-Ced and Tohono O'odham

Residing upon Hia-Ced O'odham territory Quitobaquito Springs are a revered and sacred site to all O'odham upon O'odham jewed (land)" It is regularly used to hold ceremonies and pay homage to ancestors

The spring, one of the few water sources in the Sonoran Desert is located in what settlers call Organ Pipe Cactus National Monument, on the so-called US/Mexico border Quitobaquito has provided water to the O'odham and all forms of life since time immemorial Water levels in Quitobaquito have dropped 30 percent since March as contractors withdraw large amounts of groundwater to mix concrete for the wall and flatten the terrain 54,000 gallons of groundwater per day is used to construct the border wall segments For every mile of wall 411 840 gallons of extracted water is utilized The springs are at critical risk of running dry

The construction is a continuation of irreversible cultural and environmental damage seen in the destruction of sacred sites division of O'odham in both the so-called US and Mexico and violent disruption of the desert ecosystem.

Do you know if capping interest rates reduces the availability of these loans?

Obviously some regulation needs to happen for these predatory payday lenders but reducing availability is going to be bad if this is the last ditch effort to make rent and someone can't get one

Antwort an @NeoliberalNM

That's a great question - certainly, some payday lenders may choose to do business where they can continue to rip off people, but many local ones will stay, I suspect. But yes, making affordable credit available to those who need it should be part of this conversation.

Or just "this is important, here" I mean it's only cross-posting for the people on both lists. what about the people only on one of the lists? For them it's just an email. Why do we need to preface it at all? We all cross post

Clearly, I have feelings.

Honestly, this usually amounts massive habitat destruction that enriches corporations. We need solar on rooftops, over parking lots, on already degraded land. Paving desert habitats with industrial solar projects isn't remotely green, and some Dems need to figure that out

I see conservation as the wise use of natural resources — industrial scale renewable energy production to me, is a viable path forward to replace the extremely toxic fossil fuel industry. I admit it has significant impacts on lands, but think it's a step in the right direction.

REPUBLICAN PARTY OF NEW MEXICO BEHIND ELECTION LAWSUIT TO IMPOUND ALL BERNALILLO COUNTY BALLOTS

RPNM PETITION CALLS ON AUTHORITIES TO CHECK THE VERACITY OF VOTES IN NEW MEXICO'S LARGEST COUNTY

Albuquerque, December 4- The Republican Party of New Mexico launched and financed a lawsuit that was filed today requesting that all 2020 election ballots in Bernalillo County be impounded.

RPNM asked 1st Congressional District candidate Michelle Garcia Holmes to submit the petition New Mexico law grants candidates the right to have authorities impound tally sheets, registration certificates, paper ballots, absentee ballots, statements of canvass, absentee ballot applications and absentee ballot registers

RPNM and Garcia Holmes want to have ballots checked

The petition, filed in New Mexico's Second Judicial District Court, asks the Court to examine the attributes of ballots cast in the recent unusual election.

RPNM and Garcia Holmes are petitioning the Court to impound ballots in Bernalillo County's 70 election-day voting convenience centers, 17 early alternative voting locations and 86 absentee voter precincts.

"There are questions that still persist in this election that involve election integrity, and we must look closely at what happened here in New Mexico," said Republican Party of New Mexico Chairman Steve Pearce.

The Republican Party of New Mexico is also considering impounding ballots in other counties.

When we use social services, we're not taking a handout. We're just using services we already paid for with our own taxes.

Last winter, I wrote about an asylum-seeker named Kevin and how ICE used confidential therapy notes to keep him detained.

In July, his detention center was overrun by Covid, and he gave up his case. He didn't survive even a month back in Central America.

Friends, and Friends began accept ng revenue on behalf of the City before the City ever approved the MOU In the meantime, just three days after the Friends bank account was opened, Philip San Filippo agreed to loan Marci Dickerson $25,000 for one of her sports bars (See a detailed discussion of this oan and potential conflicts of interest elsewhere in this report.)

I believe the report alleges that San Filippo made an interest bearing loan of 25k out of his own pocket, then failed to disclose that loan to the city as a conflict of interest, while making decisions that impacted the success of her businesses.

Parliamentarian of antifa. You're out of order. @LucasHerndon 29 Dez

Marci got $25,000 from the city for her bars?!

> The competitive bidding process for the CMF contract awarded to Dickerson's Catering was egregiously manipulated Ms. Dickerson was always going to receive the event management contract, as is clearly shown by Mr San Filippo's actions. Mr San Filippo and Ms Dickerson emailed the CPA long before the RFP even went out. They set up the bank account and Ms. Dickerson took possession of the City's funds before she was even recommended as the winner, much less before Council approved her as the event management contractor Friends was incorporated, the bank account was opened for Friends, and Friends began accepting revenue on behalf of the City before the City ever approved the MOU. In the meantime, just three days after the Friends bank account was opened, Philip San Filippo agreed to loan Marci Dickerson $25,000 for one of her sports bars. Folks are making their Congressional wishlists, and rightly so -- but let's not forget that change doesn't happen on Twitter. It happens when we strategize, organize, create and execute on the ground. If there's an issue you're passionate about, organize to make it a reality.

With all due respect, @RepHerrell, you have enabled this coup. You have the privilege of special protection from Capitol Police, while employees and other staff scramble to safety, protecting themselves from the very goons that you and the president have enabled and supported.

We're seeing the monster that is white nationalism physically manifesting on the steps of the nation's capitol. It has always been there, but it's been hidden in legislation, in Congressional offices, and in court rooms. We've always known it's there. Today we see its many faces.

Hard-working people of color having to clean up the destruction from white supremacists is a sad illustration of the systems of injustice that are alive & well today.

Black maintenance staff, who were likely forced to hide during insurrection, are cleaning up the mess of a white mob that hung a noose outside the Capitol.

This is one of those stories that's painful to write (I mean, a 70-100 % projected decrease in snowpack...when we already have snowpack problems) & I feel bad asking you to read it. But if you live in New Mexico, you really should know what's happening.

Trump's failed border wall is a symbol for white supremacy

His administration's racists rhetoric led to a domestic terrorism attack on our country.

We reject this hatred at the border and across the country. We are stronger together caring for each & every one of us

Prosecutors are arguing to keep Couy Griffin, the founder of "Cowboys for Trump," in jail while his case is pending: "The defendant's inflammatory conduct, repeated threats, delusional worldview, and access to firearms makes him a danger to the community" assets.documentcloud.org/documents/2045 …

Danger to the Community

The fourth factor the nature and seriousness of the danger to any person or the community posed by the defendant's release, also weighs in favor of detention. The defendant has twice traveled across country to engage in demonstrations, with one turning violent, bloody and deadly.

10

Case 1:21-mj-00092-ZMF Document 3 Filed 01/19/21 Page 11 of 11

and the second, according to the defendant, promising at least the same. The defendant has taken "nothing off the table" in pursuit of his aims to ensure "Biden will never be president." The defendant's inflammatory conduct, repeated threats, delusional worldview, and access to firearms makes him a danger to the community. In order to protect the community and assure his appearance at future court proceedings, the defendant should be held without bond pending trial.

A full-time minimum wage worker can't afford rent in a 2-bedroom apartment in any state in our country.

If the minimum wage kept pace with economic growth, it would be at least $19/hr today.

This is a vital and long-overdue step.

> JUST IN: House and Senate Democrats introduce legislation to raise the federal minimum wage from $7.25 to $15 by 2025.

Typical messaging from opposition to undermine and minimize communities and their efforts to overcome oppressive policies. It's a new day in New Mexico, and our people are front and center in the work—let's celebrate that instead of perpetuating false narratives.

I just looked it up:

In 2020, @GregAbbott_TX took more than $180,000 from oil, gas, and energy companies—and he wasn't a candidate.

Ted Cruz, John Cornyn, and Dan Crenshaw took more than $1.1M.

They lined their pockets and left Texans vulnerable to this disaster.

Today @HouseDemocrats are voting on a package of bills that includes my #KeepItGrand effort to ban new mining around @GrandCanyonNPS.

These bills fight the #ClimateCrisis and protect 1.5 million acres of #PublicLands. Americans want to #KeepItWild for future generations.

A huge thank you to @mcqueenfornm for so skillfully & diplomatically bringing HB200 - effectively ending the Gila River Diversion - to the House floor & navigating the tense and often hostile politics produced in that debate. We must protect the free-flowing Gila. #nmpol

Another huge shout out to @anrubio - for bringing transformational bills to the House that impact the working class in so many ways - paid sick leave, fair housing, private prison reform, climate change and workforce solutions, prescription drugs - the list goes on. Wow! #nmpol

@Gabe_NM is District 3 doing any sort of online meetings during the pandemic?

If not, we have server facilities available to host Zoom-like video conferences.

A strong mutual aid program would really benefit the Chaparral Town community and District 3 at large.

Disappointed to hear more accounts of male legislators - Democrats included - grandstanding and talking down to women legislators, obstructing critical legislation for working families in the process. Work for the people, not for your ego. #RespectWomen #nmpol #nmleg

House passed HR1603 revising visas for farm workers and providing a path to citizenship for them. It establishes a mandatory E-Verify program so employers can check immigration status.

> **OVERHAULING FARM-WORKER VISAS:** Voting 247 for and 174 against, the House on March 18 passed a bill (HR 1603) that would overhaul the H-2A visa program, which admits undocumented migrants for temporary U.S. agricultural jobs the domestic workforce is unable or unwilling to fill. Over time, the bill could enable hundreds of thousands of these workers to apply for legal residency for themselves, spouses and minor children. In addition to meeting labor shortages, the bill would establish a mandatory federal E-Verify system by which agricultural employers could determine workers' immigration status.

Didn't the article say that nothing can be stored north of Elephant Butte, until EB and Caballo were filled beyond their threshold? Seems like the north is having to give up water now and shift it south, or am I missing something?

The irrigation season - the only time that water actually flows out of the reservoirs (Elephant Butte and Caballo) and into the Rio Grande, will be shortened this year - perhaps just one month of water release. That means we may only have actual water in the river for one month.

Communities that helped fuel America for so long cannot be left behind in the transition towards a green economy.

This is why I'm urging @POTUS to focus on a just transition, invest in our communities & tackle climate change in the upcoming infrastructure and stimulus plans.

The Honorable Joseph R. Biden, Jr.
President
The White House
1600 Pennsylvania Avenue NW
Washington DC 20500

Dear President Biden,

Thank you for your commitment to enact a bold infrastructure and stimulus plan as the transformative historic moment as we climb out of a recession, address the climate crisis, and build a better more equitable future. Like many states throughout the country, New Mexico needs infrastructure investments that will create the foundation for our communities to thrive. As your Administration develops its Build Back Better proposal, I urge you to consider the following ways in which it can help New Mexicans and all Americans.

Investments to a Just Transition to a Greener Economy

New Mexico is ground zero for the potential for bold climate action and also the potential for economic disaster. We can't do it transition with an understanding of the likely harm to the communities that have depended on fossil fuel development for both jobs and tax revenue. Our ecosystem is very fragile and a warmer planet could mean extensive droughts and wildfires that threaten our very existence in the beautiful place we New Mexicans all house.

Green Grid. New Mexico has enormous potential for wind and solar electric generation but we need to get it to where it is needed most through microgrids, community solar, and large projects that can tie into transmission lines that go northeast as well as west. Investments in the green grid would help us create a 21st century. Route 66 of renewable energy where electricity generated in our underutilized and windy areas could fuel a national electric grid [illegible] renewables.

Just Transition Innovation Investment. I support ramping up research funding at our national labs in Los Alamos and Sandia to accelerate the innovations we need in batteries, computer modeling, geothermal, and hydrogen fuel to meet your clean energy goals. The research funding should be coupled with technology transfer investments so businesses are putting

Violence against Indigenous peoples is a crisis that has been underfunded for decades. Far too often, murders and missing persons cases in Indian country go unsolved and unaddressed, leaving families and communities devastated. (1/2)

LWCF is incredible. It's also often unattainable for certain low-income communities that can't make the 50% funding match for state-side grants. OREC directors are mounting a campaign to allow waivers, loans or revisions to help distribute funds equitably.

Just a thought - the article mentions well fires and that they are fought with "fire-suppressing foam" and water - we know that #PFAS are in such foams, mixing with fracking fluids and water and getting into soil and groundwater

Unfortunately most NM highways look like plastic wastelands during the windy season. We are discussing an ordinance banning plastic bags & reusables at our work session today at 1 p.m. We will be implementing those restrictions in the near future, in addition to funding cleanups.

I've noticed that as well, but I think engaging vols, business teams, groups and posting "sponsor signs" conveys that ppl in the community care. Spent summer 2019 in Grand Teton NP. Jax Hole has a total ban on plastic bags. Bring your own or pay for paper. Tnx for responding.

While you're at it, can you, as a council, acknowledge the fallacy of plastic recycling as an oil industry marketing ploy and stop forcing city residents to fill the pockets of a private industry that capitalizes on that known lie?

Definition of "American" includes people of North and South America. So those trying to come into the United States from southern nations are already Americans. Most have ancestors who inhabited these continents for thousands of years before Europeans arrived to "take over" ☮

The drought severely limits water availability in the Rio Grande and the entire Colorado River Basin - but the continuous flow, even minimal, is possible if we re-think the value of water and who its primary beneficiaries should be. Just irrigators, or all members of a community?

I rarely have a single favorite, usually a list of favs, but I guess my most loved national monument would have to be @MSHNVM, due to proximity and because I watched the volcano erupt (the plume anyway) and have since climbed it three times. Just fascinating. twitter.com/Gabe_NM/status

We re usually pretty good about that so hope t s a poss:bility, but there are already CO dispensary chains snapping up real estate before they even know if t s usable.

If they corner the dispensary market that will probably make it harder for local growers to find buyers.

True that, it's not the rich paying more but to pay the same tax rate as the rest of us

So much to admire in New Mexico, where @GovMLG and Sec. @EGroginsky of @NewMexicoECECD announced major #childcare reforms yesterday. Subsidy eligibility will increase from 200% of federal poverty to 350%. THREAD

FLOOD EVACUEES MAY RETURN HOME

Sheriff Kim Stewart announced that an assessment team evaluated the area in La Union most affected by the flood and deemed it safe for people to return to their homes. If you are asked to not return to your home it is because major structural damage has occurred and it is not safe.

No street parking will be allowed in La Union because streets need to be accessible during the restoration period.

Thru hikers of the Continental Divide Trail start their journey on the border near Hachita before making their way into the heart of the Gila National Forest. This is one of southern NM's most important outdoor recreation assets, bringing jobs and tourism to SW NM. @CDNST1

Indeed Gabe. The @CDNST1 supports the gateway communities of #Grants, #Cuba, #El Rito and #Chama in north #NewMexico. Another route that bikes and motorcycles can do is the gdmbr.org/tag/new-mexico. Many folks we meet #bikepacking say the #NMTrail section is their favorite. We❤️!

As we celebrate Hispanic Heritage Month, I can't help but think of Fabian Garcia.

He was a Mexican-American horticulturist who created NM #9, the chile that is the genetic ancestor of all NM chiles.

I think it's pretty awesome. We have a science center named after him at @NMSU

CONGRESS

Americans give Republicans in Congress their lowest job approval rating since February 2021: a negative 23 - 65 percent rating. Democrats in Congress also receive a negative job approval, 37 - 53 percent, which is the lowest rating they have received since February 2021.

Hello Mr. Vasquez,

I Just wanted to thank you for the rapid actions taken on the count of you and your influence. It is extremely important that the community action officers and city officials connect with and identify improvements in our neighborhoods. Officers [redacted] his supervisor [redacted] and codes office [redacted] have all been a great asset to our community, serving with patience and kindness, the type of people we need more of.

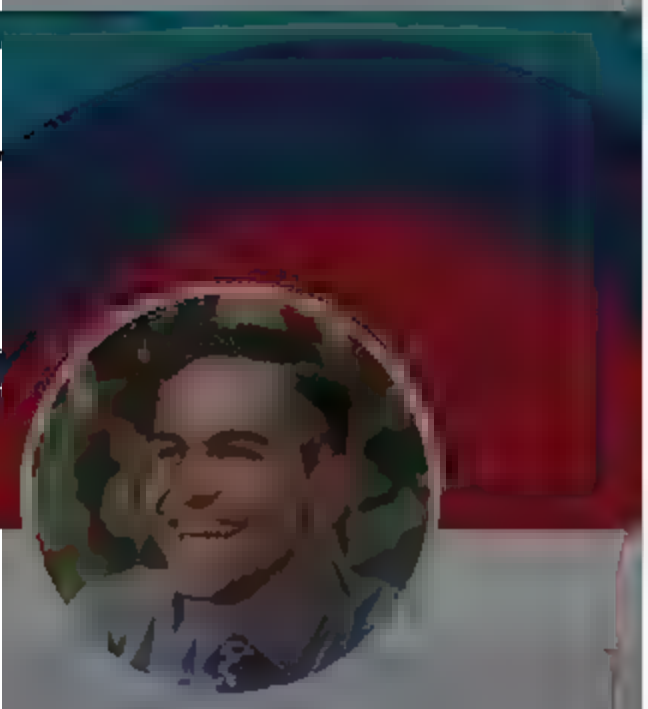

What a great start to fixing issues that have been around for years. I truly believe that you will do extremely well representing us in congress! If there is any way I can be of service to your campaign or write emails, tweet, post, etc… just to get this story out I would love to do that. We are beyond grateful! You saw a need and fixed it. Thank you!

The 10 richest people on the planet are now worth $1,375,000,000,000. 9 of them live in the United States. And yet the corporate media continues to label politicians opposed to taxing the rich as "centrists." Never lose your sense of outrage.

Because frankly, the current state of affairs in Las Cruces is quite scary

Dr. Lawson - I hear you. For too long, we've designed car-centric corridors that we now have to go back and retrofit for pedestrian and bicycle safety. Federal infrastructure funding for municipalities can help with these costs, as well as promoting smart development.

Childcare costs in New Mexico and across the country are way too high. An average family spends $9,095 a year on child care.

The #BuildBackBetter Act will cap childcare costs at 7% of your income -- that's thousands of dollars back in parents' pockets.

Rudolfo Anaya is a uniquely New Mexican treasure, an artist & community hero - we mourn his passing and thank him for the legacy he left behind. Reading Bless Me Ultima in 7th grade gave me an entirely different perspective on land, water and culture.

> **VA BENEFITS SYSTEM:** The House has passed the Ensuring Veterans' Smooth Transition Act (H.R. 4673), sponsored by Rep. Mark Takano, D-Calif., to have the Department of Veterans Affairs automatically enroll eligible veterans, with the veterans' consent, into the agency's health care system. Takano said automatic enrollment "helps simplify the process and prevents veterans from potentially missing out on lifesaving care." A bill opponent, Rep. Mike Bost, R-Ill., cited an estimated $3.1 billion cost, and said the program could take away from other VA services. The vote, on Jan. 20, was 265 yeas to 163 nays.

Most New Mexicans are one medical emergency away from bankruptcy. Add to that the inflated prices of prescription drugs and it makes for a healthcare disaster. We must allow the government to negotiate lower prescription drug costs.

Inflation and rising prices are having a serious impact on New Mexico families. Record investments to improve our supply chain infrastructure will help, but we must do more to keep costs down for working families.

If Yvette Herrell truly believed in investing in New Mexico, she would have voted for the bipartisan infrastructure bill. You can't take credit for things you voted against - that's not how it works. Nice try though. #NM02

Ill add that ICE & CBP have been been doing this for decades - disappearing mothers, fathers, children, with no regard to their value or contributions to their communities. Certainly no regard for their humanity. But we know why that's largely been ignored by the public at large

The US Attorney for New Mexico informed me today that "Operation Legend" is coming to Albuquerque. Given the mess it created in Portland, I let him know in no uncertain terms that this isn't the kind of "help" that Albuquerque needs. newsweek.com/what-operation

Ill add that ICE & CBP have been been doing this for decades - disappearing mothers, fathers, children, with no regard to their value or contributions to their communities. Certainly no regard for their humanity. But we know why that's largely been ignored by the public at large

Black lives matter. Until we deconstruct and rebuild the systems of oppression that keep black people in perpetual harm, justice will not be served. That includes law enforcement, the economy, and the disgusting wealth inequality that keeps white rich men in power.

Ill add that ICE & CBP have been been doing this for decades - disappearing mothers, fathers, children, with no regard to their value or contributions to their communities. Certainly no regard for their humanity. But we know why that's largely been ignored by the public at large

Wonderful programs like these help build confidence and leadership in our youth - there's a lot of culture and history to be learned in the outdoors!

Republicans' ill-informed decisions on the border are costing us time, money & bogging down our supply chain. Gov. Abbott's border policies are wrong, just like Rep. Herrell's. I will strengthen our trade economy in New Mexico, not weaken it. #NM02

We are expecting catastrophic wildfire activity today as a result of hot, dry & windy conditions. We have to tackle this destructive & very expensive change in climate by funding wildfire mitigation, supporting our first responders and acting to curb emissions. The time is now.

National experts know #NM02 is one of our best chances to flip a district blue and help hold the House. We can win this race, but we need the resources to fight back against Republicans. Please chip in $5, $10, or whatever you can.

Firefighters deserve better pay and better benefits.

We've already seen a devastating start to this fire season. We need to build up a strong wildland firefighting force. And it starts by making sure those on the front lines of these fires are paid what they deserve.

The Honorable Kiran Ahuja
Director

1900 E Street, N.W.
Washington, D.C. 20415

Dear Secretary Vilsack, Secretary Haaland, and Director Ahuja

As the 2022 fire season begins, we urge you to take necessary steps to meet critical staffing shortages in the wildland firefighting workforce. By using granting authority to establish a special pay rate for federal wildland firefighters, we can directly address the recruitment and retention crisis, and ensure that the pending "wildland firefighter" occupational series reflects the professional capabilities of our wildland firefighters.

Years of low pay and other issues have hollowed out the federal wildland firefighting workforce. Last year, fire officials were unable to fill an unprecedented 1,800 emergency requests for wildland firefighting crews and more than 4,400 requests for fire engines in one study the U.S. Forest Service (USFS) had 61 engines idle because of low staffing as the result of the largest fire in state history. Such shortages exist throughout the West heading into the 2022 fire season, with officials estimating staffing will be below 75% in some regions. This is an urgent threat to natural resources, public safety, and taxpayer dollars, as the Federal Government pays a premium to contract and borrow firefighting resources from state and local authorities when federal resources are unavailable.

The Office of Personnel Management (OPM) must use its authority to ship further attrition in the wildland firefighting workforce. OPM has the authority for special pay rates to address staffing problems caused by significantly higher non-federal pay rates, the remoteness of the area or location involved, the undesirability of the working conditions or nature of the work involved, and any other circumstances OPM considers appropriate. All these criteria appear

Yesterday's horrific shooting in Buffalo reminds us that politicians and pundits who spread hate poison our society and often have tragic consequences. It is infuriating that they take no accountability. I mourn and pray for the families who lost their loved ones.

Here along the Bosque trail, just south of Montaño. A woman walking her dog told me the flames "jumped the river," from west side to east side. We can see some flames popping up from the bike path/trail's edge. Gusty winds, lots of smoke in the area, fire crews working nearby.

My full statement on our primary victory in #NM02.

GABE

Statement From Gabe Vasquez On His Primary Election Victory

"Our victory tonight sends the message that New Mexicans want an authentic representative who puts them first, instead of one who is only interested in playing partisan games. Our message is simple: New Mexico deserves better than Yvette Herrell and her harmful MAGA agenda. In Congress, I'll fight for a fair economy that cuts inflation and lifts up the middle class, access to affordable, high-quality health care, a transition to clean energy that creates thousands of good paying jobs, and comprehensive immigration reform that provides a pathway to citizenship for millions of families and keeps our border safe. With the support of people across our district who want a better future for their families and communities, I'm confident we will win in November and make sure working families always come first."

Nativism, nationalism, the thin blue line and the symbolism of the punisher logo, red hats and the constitutional sheriff's movement — make no mistake, these tools of propaganda are being used by this administration to divide the American public, with racism at its core value.

As the #January6thHearings start remember Yvette Herrell is proud of Couy Griffin's support, who was convicted for his part in the Jan. 6 riot & took thousands from fake Trump electors. You can't serve democracy if you attack democracy #NM02

Watch this if you can. Then think about the vote Yvette Herrell subsequently took to decertify the election, even after this violent carnage and insurrection against our country. Truly shameful.

Gas prices are too high for families in #NM02. But, while oil companies are making record profits, Yvette Herrell voted AGAINST holding them accountable for price gouging. Who is she really working for? It's not us.

The #RoeVsWade decision highlights the stakes of this election. My opponent Rep. Yvette Herrell supports a national ban on abortion without exceptions for rape, incest or the life of the pregnant woman. #NM02 deserves better than her MAGA extremism. Read my full statement below.

GABE VASQUEZ FOR CONGRESS

Statement From Gabe Vasquez on the Supreme Court's Decision to Overturn Roe v. Wade

"I am deeply disappointed by the Supreme Court's decision to overturn Roe v. Wade and eliminate the right of women to make their own personal healthcare decisions. This ruling highlights the stakes of this election. Yvette Herrell has, along with other MAGA Republicans, co-sponsored legislation that would make abortion illegal throughout the country - even in the case of rape, incest, or to save the life of the pregnant woman. New Mexico women should have the right to make their own health care decisions, but Republicans like Herrell think politicians should make this decision for every woman - even if it puts their life at risk. This is unacceptable and I will fight to codify Roe. V. Wade in Congress."

I'll never forget that the biggest impression on this young school girl was learning about ecology in the late 60s. It sent me on a life-long journey to caring for our Earth, animals, and natural resources. Thank you! Let's go Aggies!

Are you talking about food?

Is that how ppl in America spell chili?

Or just autocorrect, probably that's it

Unions fight for workers and protect and grow our middle class - that's why I'm glad to have their overwhelming support. On this Labor Day, let's remember and honor those who built this country and power our economy - our workers! Happy Labor Day!

Thank you @waytoleadus for joining #TeamVasquez. Together we'll win in #NM02 this November & build an economy that works for everyone, decrease costs for working families & protect reproductive freedom.

We're thrilled to endorse @Gabe_NM for #NM02. Gabe is a proud son of New Mexico and has already delivered so much for his community as a City Councilor. We can't wait to see what he'll do in Washington!
